

A focused, controlled first proof.

One site. One CAPA or NCR workflow. Approved historical data. Designed to prove usefulness before ongoing use.

FOUNDING PRICE

GBP 2,950–4,500

DURATION

4–6 weeks

DATA

250–1,000 records

SCOPE

1 site / 1 workflow

01

Retrieve similar events

Potentially related history, previous containment and corrective actions with direct source references.

02

Identify evidence gaps

Missing measurements, records, people or tests organised for the investigation owner.

03

Prepare controlled drafts

Problem statement, investigation plan and clearly labelled hypotheses for human review.

WHAT IS INCLUDED

- + **Source-linked related-history review**
- + **Baseline and measured results**
- + **Controlled review workspace**
- + **Written recommendation and next step**

DELIBERATELY OUTSIDE SCOPE

- Autonomous root-cause declaration
- Product disposition, CAPA closure or release
- Production integration or QMS replacement
- Certification or compliance claims

NEXT STEP

Book a free Quality History Assessment to check fit before any paid work.
