

A focused, controlled first proof.

One site. One CAPA or NCR workflow. Historical data only. Designed for manufacturers that need evidence before integration.

FIXED PRICE

GBP 9,500

DURATION

4-6 weeks

DATA

Up to 250 records

USERS

Up to 5

01

Retrieve similar events

Potentially related history, previous containment and corrective actions with direct source references.

02

Identify evidence gaps

Missing measurements, records, people or tests organised for the investigation owner.

03

Prepare controlled drafts

Problem statement, investigation plan and clearly labelled hypotheses for human review.

WHAT IS INCLUDED

- + **Baseline and final value report**
- + **CSV or Excel historical source**
- + **Controlled demonstration environment**
- + **User review and operating guidance**

DELIBERATELY OUTSIDE THE PILOT

- Autonomous root-cause declaration
- Product disposition, CAPA closure or release
- Production integration or QMS replacement
- Certification or compliance claims

NEXT STEP

Book a free Quality Value Call to confirm whether the data and workload justify a pilot.
